

Quick Start Guide

Intelliglobe™ II pen overview

Quick Start Guide

- 1. Turn on:** Press and hold the power button until the LED light located on the side flashes blue.
- 2. Turn off:** Press and hold the power button until the LED light turns off.
- 3. Pause/Play:** Press the power button to pause/play the audio.
- 4. Volume controls:** Volume can be adjusted by pressing up and down arrows located under the power button.
- 5. Sleep Mode:** The pen will go to sleep after three minutes of inactivity, to save battery life.
- 6. Battery:** The pen has an internal lithium-ion battery. A fully charged battery can continuously work for 2.5 hours.
- 7. Low-battery:** If the battery is low, you will hear a warning, "Low power". Please proceed with charging the pen.
- 8. Charging:** Connect the pen to a power outlet using the included USB cable. The LED light will turn red when charging. The light will turn off when fully charged. Please note that the pen will not function while charging.
- 9. Reset:** If the pen does not respond when pressing the power button, use the reset pinhole to restart the pen.
- 10. Sound options:** The Intelliglobe™II has two different sound options:
 1. The Intelliglobe™II pen has built-in speaker.
 2. The Intelliglobe™II allows you to connect headphones to your Intelliglobe™II pen (head phones are not included).
